White Etching Satin, 270 g/m²

Bright White, Fourdrinier Paper

©2000 Jesús Vilallonga "Blue Malvi" – www.vilallonga.com

Product Description

Available in 17", 24" and 44" rolls and all standard cut sheet sizes. This quality is a 25% rag, bright white fourdrinier paper with a surface structure similar to "German Etching", with a higher whiteness. "White Etching Satin" produces a semi gloss shine on the printed part of an image. The unprinted part remains matt. "White Etching Satin" is suitable for use in all wide format and desktop printers.

Applications and Characteristics

The printed side of this paper has been specially coated for excellent image sharpness and optimum colour graduation. The coating also offers a very high level of water resistance.

Common applications include: Fine art reproduction, business cards, greetings cards, post cards, menu and Novelty applications, certificates and presentation prints for display purposes.

Physical Characteristics

	Unity	Valuation	Test Norm / Notes
Test Conditions		23°C / 50% R.H.	SGC01
Weight total	g/m ²	263	ISO536
Thickness	mm	0,43	EN 20534
